Awareness programmes on earth architecture and appropriate building technologies are regularly given to various parties. These programmes are given, upon request, to students of Schools of Architecture or engineering, Indian Council of Architecture, GOs and NGOs, etc.

Since a while, there is an increasing demand for this kind of sessions, especially from Schools of Architecture: not only from India but also from various parts of the world, like the USA or European countries.

Awareness programmes - Since 1990 -

Awareness programmes - To students of schools of architectures -
