

TRAINING COURSES

AWARENESS PROGRAMMES

Awareness programmes on earth architecture and appropriate building technologies are regularly conducted at Auroville to various parties. These programmes are conducted, upon request to students of Schools of Architecture or engineering, Indian Council of Architecture, GO's and NGO's, etc. There is a regular increased demand for this kind of sessions, especially from Schools of Architecture: not only from India but also from various parts of the world, like the USA or European countries. Occasionally, awareness programmes are conducted in villages, at the request of NGO working in the field.

Awareness programmes since 1990
