CATIS-Mexico presents...

Compressed Earth Block & Natural Plasters Workshop
August 13-16, 2012
CATIS-Mexico Institute, San Miguel de Allende, Mexico

This 4-day seminar is an introduction to the construction system of compressed earth blocks co-taught by two industry leaders and CEB pioneers, Jim Hallock and Jeff Rottler.

Jim Hallock is a wealth of information with over 40 years in the construction industry and 18 years dedicated to the promotion of CEBs as a solution to the housing crisis.

The four-day course consists of:
- The ABCs of earthen construction
- Soil selection and processing, field testing
- CEB manufacturing with different machinery, curing, and testing
- Hands-on construction of CEB walls
- Lime and clay plastering
- Nopal cactus: harvest and prep for natural plaster applications

Costs are $525 for the course and include:
- Breakfast and lunch every day
- Bi-lingual teaching (English and Spanish)
- Daily transportation to and from the CATIS-Mexico Institute and the city of San Miguel de Allende
- Course materials
